

Mountain Lakes Green Team Minutes

October 29, 2013

Present: Marnie Vyff and Bob Tovo

Energy tracking - We'll choose Utility Track but are waiting for pricing. They do the work. They're the only viable player.

Complete streets - Bob looked at it but the program is too in depth. We are a smaller community than it is designed for. Madison has a decent program we can cherry pick from.

Vehicle inventory is easy enough. We did last time.

Recycled paper - Michelle Reilly has the numbers. Our paper has a higher recycled content than required for Sustainable Jersey. We just need to write the Action and submit it.
