DPW conference room

Present: Marnie Vyff, Mark Prusina

1. **Comments from the Public:** None
2. We discussed various actions that Mark and Ryan have completed material and a couple that we would like to do.

Water Ordinance – All we need is to change the ordinance to 2 days water in the summer. This would be a tough issue with the Borough Council. We then would educate the residents and make sure the systems are working.

Water Conservation – Send to Mark what we have done and what we need – Policy, Plan, guidelines.

Sustainable Land Use Pledge - Marnie will send to Mark the Action and examples.

Green Purchasing Policy – Talk to Danielle to see if we have this done.

Community Garden – Mark has a plan that was drawn up. Can be easily made. Water pipe would have to be laid to the site. We need the ok from the Borough Council.

Indoor Air Quality – Mark will send to Marnie.

Pest Management - Mark will send to Marnie.

Respectfully submitted by Marnie Vyff
